“ *Memories of Betty are many, reminding us of her dedication, love and encouragement she shared with so many students, staff and everyone around her, wherever she was. Strong, determined, hard-working, willing spirit, smiling and serious could all describe her. Wonderful work in establishing the museum for OSD!! She blessed many of our lives, within our family and friends. We are grateful for her years of service to all mankind and especially those of us who are Deaf or Hard-of-Hearing!! Thank you, Betty!! May her family know that we all loved her, respected her and appreciated all she did, throughout her life!*

“ When I started to work at OSD, they were just building the new gym/auditorium building. My classroom was on the 1st floor of the school building and the gym classes were being held in that hallway. I had never learned sign language so when I needed to know a new sign, I'd catch Betty in the hall, spell the word to her , and she'd teach me the sign. Even after the building was finished and they moved in, Betty still taught me signs when I needed one. That endeared me to her and I always loved her. I'm picking a yellow candle for her because it it a happy color and just reminds me of her.
