“ *Bryson I feel like I'm in a horrible nightmare and I can't wake up. I can't believe your gone. You had your whole life ahead of you. I had just talked with you a few hours before and I had told you please be careful and you said, "always am!" as you laughed and said i'll call you later. I will always remember you cracking jokes and laughing. You could make me laugh and smile when I was having a hard or even a bad day. You were always blunt and honest with me. Even if I didn't like your truth. I still listened. And if you weren't cracking jokes you were singing. Their will never be a day I wont think about you. You will for ever be missed. Fly high my friend until we meet again.*

“ Bryson you are a friend like no other, you could make anyone smile when they was down. We are heart broken, but we know that you are with Jesus. It's hard to realize that it will be a long time before we see that smile or hear your laugh.

“ Bryson even though I only knew you for about 5 years, you and my brother Corey grew up together and you were family to him so you were like family to all of us. My brother Robert shared a story with me today about how you were sitting there at my grandma's one day like you did alot and looked at him and said you know brother this world is all screwed up you can't even enjoy a ride around in your vehicle cause your feeling guilty about polluting the ozone. It just one of the reason we knew how big your heart was and how deeply you cared for others. You always had a smile. My kids loved when you came around you would always let them rough house with you. You will always be remebered never forgotten. Do me a favor from up above if you would, watch over Corey he is going to be lost for a little while. He could use a guardian Angel like you. Fly high brother until we meet again.
