“ Buddy has been a part of my life as far back as I can remember. Many of my childhood and teenage memories are with him and his family as David, Jamie, Shanon, and I were children. Those were fun and some painful memories resulting in a doctor's visit.

“ I remember Buddy Young as the best, most loving Grandfather I ever met. He would take Cole and Jesse to work with him in the summer when they were out of school. To keep them busy on the long car drives going to the wells, he gave them road maps and had them map where they were going. I found out about this when I came and picked them up to spend the week with me in Texas. We were driving to Texas from Wynnewood and being very bored they started wrestling around in the back seat. I asked them if they acted this way with Buddy. They said NO, he gives us road maps and we trace where we are going. They also knew where every good restaurant was between Wynnewood and Texas. We stopped at a gas station and bought some maps and pencils. I was more than impressed by their map skills Buddy had taught them. He was a very kind, very talented man. He taught those boys many skills. I had never seen children their age who understood map skills.
