“ *Tobe was a good man. He took care of his family and always treated me with respect and had a great wit about him once you got to know him. He was loved by many and will be missed!*

“ *The first time I remember Tobe was the nite of his & Bonita's chivalry. He was passing out cigars & some how I got to take a couple of puffs off of one of them. The next thing I remember I was so sick. If I remember right I was sick the next day too.*
