“ I minister to the residents at Burford Manor every Sunday. MS Anne would attend some of my Church services. She was a inspiration smiling to hymns and joking with Keith. I told her I was from Texas and loved the Longhorns. Boy she smiled and would raved about her OU Sooners. I'm blessed to have touched her soul and spirit to Jesus. She is smiling from heaven and her spirit will always touch us. Thank you God for opening this door at Burford Manor to bring joy to the residents and closer to God.
Love in Christ, Margaret Jones

“ Anne was the most sweetest lady I’ve have had the pleasure to take care of. This lady was like a grandma to me. I always looked forward to seeing her everyday. She was definitely a hoot but she always could make someone smile if they were having a bad day. I’ve done everything with this lady we rolled silverware together , colored together ,and shared a lot of stories together. Anne always told me about her past and her life stories. When Anne was down or just having a bad day I would sit with her and hold her hand because that’s what she loved me to do. Monday I went to the hospital to say my goodbyes I held onto her the whole time as she was crossing cove the bridge to heaven. It broke me big time watching the monitor go to zero and when you took your last breath but I know you would’ve don’t it for me. It’s definitely hard not seeing her and passing her room where we once shared our stories, made some memories together, and a bunch of laughter but I’m definitely at peace knowing she is living a life full of peace and happiness. Annie I love and miss you so much already but I know you have a fully new and healthy body now and living it up there in heaven. Thank you for loving me as one of your own as you would say I was one of your girls and that was definitely for sure. I love you Annie, I got it from here. Rest easy sweetheart you will definitely be missed
