“ *I'll never forget how she smiled at me when i was two years old and she was about 8 months into her first pregnancy with my oldest nephew. She told me that there was a baby in her tummy. So i promptly got down on my hands and knees to look up the robe she had on that evening, telling her that i didn't see any baby..... Although she was slightly embarrassed she just laughed while she picked me up and just loved me. That was 58 years ago. She gave me the nickname of Lido which makes me so proud to this day when all three of her sons still call me Aunt Lido. I loved her dearly. My Dragon Lady who i will always hold dear in my heart and never forget!*
